

Wireframe Review

I have created a wireframe for my project assignment. The project focuses on the history of the Internet in Canada. The website provides information about the technological timeline, government legislation and policies related to the Internet, and relevant statistics.

Please open the wireframe using the following link and explore its features. and review the layout and navigation between the pages and contents for all three sizes (desktop, tablet and mobile).

[Shared Wireframe](#)

Is the site easy to navigate? *

1

☐

2

☐

3

☐

4

☒

5

☐

Did you get confused at any point? *

☐ Yes

☒ No

If your previous answer is yes, please provide details:

.....

How would you rate the layout of topics?

1	2	3	4	5
☐	☐	☐	☒	☐

How would you rate the navigation tools?

1	2	3	4	5
☐	☐	☒	☐	☐

What would you change or add to the site?

The structure is overall ok. I recommend following improvements:

1- fix the menu and logo on top of the page.

2-Make the menu items shorter. For example, instead of "Legislation History" you can just use "Legislation".
